

COMMENTS

1. The lectures were very disorganized, but our fantastically organized and available TF, Linh, more than made up for Elie's disorganization.
2. Linh clearly put a lot of effort into developing quality section materials, and she was very accessible outside of class to answer our questions. She cared deeply about us understanding the material, and this greatly influenced the amount of knowledge we were able to take away from the course.
3. Linh goes above and beyond to be helpful. Her final review session was very clarifying and useful. I think that the course was disorganized, and I lacked the requisite background, so that it was beyond the point of saving for me. I was never really going to understand what was going on at a deep level. But Linh made a wonderful effort, and I am grateful to her for that.
4. Linh was a FANTASTIC TF. I am so grateful for all of her guidance. This course could have been a trainwreck if we did not have Linh, who was organized, always available to talk in person or over email, and had a firm and deep grasp of the material.
5. Linh provided excellent additional materials in order to fill in and reinforce the technical details of lectures. I think most of the material I ended up absorbing was thanks to her help.
6. Linh was great in explaining concepts clearly and was really accessible outside of class and sections via email.
7. Fantastic-- a great complement to Elie's teaching.
8. Linh was a fantastic TF. Her review session before the final exam was incredible - it helped me see connections I hadn't in class, and her feedback on assignments was fantastic. She always followed up on questions she hadn't been able to answer on the spot, either via email or in a later section. Often those kinds of questions go unanswered forever, but Linh's thorough approach really helped me tie up loose ends.
