

COMMENTS

1. Linh was super helpful outside of class. When I emailed her with questions she helped me figure out some potential issues in my research area. I was very impressed by her dedication to learning about the topics we picked for our research project.
2. It is hard to believe that Linh is just a graduate student. She is an incredible TA and goes above and beyond in terms of her responsibilities. Coupled with her deep understanding of economics her desire to help, she is probably the best TA I've ever had.
3. I think it's an established fact that Linh is awesome. I have nothing else to say.
4. Gives great and detailed comments on assignments. I never went to office hours, but apparently they were very helpful.
5. Always willing to give detailed assistance and advice, beyond the compelled role of the TF. Also the snacks in the exam were amazing! Thanks for all your help Linh.
6. Linh was incredibly responsive and helpful via email and with feedback on assignments. I would have appreciated a weekly section though since we didn't have time in class to go in depth on too many topics.
7. Very helpful, friendly, and thoughtful
8. Linh is really helpful. In the few interactions I've had with her, she gives you helpful pointers for whatever research you're interested in doing.
9. Linh was fantastic in discussing ideas, and following up with helpful additional suggestions - for example papers to examine, professors to reach out to. Very helpful as I think about my research agenda.
10. Amazing! I'm so impressed with Linh! She's really stupendous -- one of the most competent TFs I've ever had!!
